

Article 10 : Support for job hunting

International students can attend employment seminars and receive employment guidance together with Japanese students. All of the campuses have systems and programs to support students' employment. Also, employment guidance and company presentation conferences for international students are provided. International students can learn the manner and ways of job hunting. Conferences presenting companies in Yamagata Prefecture are held.

If international students cannot find work before their graduation from the university or completion of their postgraduate courses and they want to continue job hunting in Japan, they can change their status of residence to designated activities, and then they will be permitted to continue job hunting for a maximum of one year.
