Notice of use of Web health record data for research in 2024  
(Comparison of Mental Health Scores of Students across Campuses and Academic Years in the  
First Semester of 2024: Yamagata University.)

This document is to inform students that a part of the data (anonymous information) obtained from the Web Health record will be used for research and to guarantee the opportunity to refuse the use of the data for research (opt-out document).

The Health Administration Center conducts physical and mental health checkups (Web health record) in the first semester (April) and the second semester (October) every year. This data will be used to understand the mental and physical health of the students and may be anonymized and used for research.

We are pleased to inform you that Web health record data will be used in the following research project. If we do not hear from you after this notice that you do not give us permission to use your clinical information, we will assume that you have agreed our research. No personally identifiable information will be used in the research, and no personal information will be presented when the results of the research are published.

If you have any questions about this research, please contact us.

Research task	Comparison of Mental Health Scores of Students across Campuses and Academic Years in the First Semester of 2024: Yamagata University.
